About Me

I'm Creative Programer and DevOps Enginer from Bandung, Indonesia, working in web development, mobile development and DevOps Enginer . I enjoy turning complex problems into simple, beautiful and intuitive designs system.

My job is to build your website so that it is functional and user-friendly but at the same time attractive. Moreover, I add personal touch to your product and make sure that is eye-catching and easy to use. My aim is to bring across your message and identity in the most creative way. I created web design and function for many famous brand companies.

What I'm Doing

Web Design

The most modern and high-quality design made at a professional level.

Web Development

High-quality development of sites at the professional level.

Mobile Apps

Professional development of applications for iOS and Android.

DevOps

I make high-quality, Scalable and Availabilities Server with IAAC (Insfrastructure As A Code) in cloud server of any category at a professional level.
